INTRODUCTION

AIFALAK is a Saudi-owned company based in Jubail, established in 2025 under Commercial Registration No: 2055158807.

AIFALAK is a rapidly growing organization offering a comprehensive range of services in heavy equipment rentals, skilled manpower supply, trading, material supply, and specialized engineering solutions. We specialize in providing top-tier support in instrumentation and control system engineering, as well as electrical and power construction services.

Driven by a commitment to excellence and customer satisfaction, AIFALAK has earned the trust and recognition of its clients. Our highly qualified and technically proficient team in the fields of civil, mechanical, electrical, and instrumentation engineering is our greatest asset.

With a strong customer service network, we prioritize understanding our clients' needs, ensuring prompt and effective responses, and delivering the most reliable and efficient solutions. At AIFALAK, we are dedicated to setting new standards of excellence in the industry.

SCOPE OF BUSINESS

- Machinery & vehicle rentals
- Heavy & light equipment rental
- Manpower Resource
- Scaffolding & material supply
- System Engineering Projects & Services
- Overhead Towers & power Electrical projects & services

MISSION

At AIFALAK, our mission is to provide reliable, efficient, and innovative solutions in manpower supply, heavy equipment rentals, engineering services, and industrial support. We are dedicated to enhancing productivity, safety, and operational efficiency for our clients through high-quality services, cutting-edge technology, and a highly skilled workforce. Our goal is to deliver exceptional value while maintaining the highest industry standards.

VISION

Our vision is to become a leading and trusted service provider in Saudi Arabia and beyond, setting new benchmarks in manpower solutions, equipment rentals, and industrial engineering services. We strive to continuously evolve, embracing innovation, sustainability, and customer-centric strategies to empower industries and contribute to economic growth.

HEAVY & LIGHT EQUIPMENT RENTALS

We are one of the reputed equipment hiring companies in Saudi Arabia. Our products includes almost everything from small handheld tools to large earth movers with our well maintained equiptmnet along with technically sound operators backed with meticulous maintenance package, so that our clients escalates to easy & efficient project execution.

With our extensive staff of experienced technicians, you can be assured that the equipment will remain reliable and well supported on site.

Below listed are some of the main heavy equipments we can supply with :

MOBILE CRANE

CRAWLER CRANE

WHEEL LOADER

ROLLER COMPACTOR

BACKHOE LOADER

DUMP TRUCK

GRADER

EXCAVATOR

BULLDOZER

MAN LIFT

SKID LOADER

TOWER LIGHT

MACHINERY AND VEHICLE RENTALS

At AIFALAK, we provide high-performance machinery and vehicle rental solutions to support industries such as construction, oil & gas, logistics, and infrastructure development. Our well-maintained fleet ensures maximum efficiency, reliability, and cost-effectiveness, meeting both short-term and long-term project requirements.

Below listed are some of the main Machines and vehicles we can supply with :

GENERATOR

WELDING MACHINE

AIR COMPRESSOR

CONTAINER WITH AC UNITS

DIESEL / WATER TANKER

TRAILER

BUS

COASTER

HIACE

PICK-UP

MANPOWER SUPPLY

AIFALAK is a rapidly expanding organization, offering a comprehensive range of engineering and technical support services in construction, maintenance, and manpower supply.

As a result of our continuous pursuit of excellence and dedication to customer satisfaction, we have built a strong reputation for reliability and quality. Our team consists of highly qualified and technically skilled professionals across various disciplines, including Civil, Mechanical, Electrical, and Instrumentation.

ENGINEERS

- Mechanical Engineer
- Civil Engineer
- Electrical Engineer
- Instrumentation Engineer
- Piping Engineer
- Plumbing Engineer
- Painting and Insulation Eng.
- Planning and Scheduling Eng.
- Estimation Engineer
- Quality Control Engineer
- Safety Engineer

SUPERVISORS / INSPECTORS

- Quality Inspector
- Safety Inspector
- Electrical Supervisors
- Instrumentation Supervisors
- Piping Supervisors
- Mechanical Supervisors
- Structural Supervisors
- Painting Supervisors
- Material Coordinator
- Auto cad operator
- Surveyor
- Foremen

GENERAL WORKFORCE

- Light Driver
- Heavy Driver
- Mechanic
- Crane Operator
- Forklift Operator
- Bob Cat Operator
- Skilled Worker
- Mechanical Helper

ELECTRO MECHANICAL WORKFORCE

- Pipe Fabricator
- Pipe Fitter
- Millwright
- Instrument Technician
- Instrument Fitter
- Industrial Electrician
- Tig Welder
- 6G Welder
- 3G Welder
- Insulator
- Scaffolder
- Electrical Technician

CIVIL WORKFORCE

- Mason
- Steel Fixer
- Plumber
- Painter
- Carpenter

ADMINISTRATIONAL PERSONNEL / OTHERS

- Executive Secretary
- Document Controller
- Time Keeper
- Fire Watch
- Manhole Watch
- Safety Officer
- Work Permit Receiver

MANPOWER SUPPLY

SCAFFOLDING AND INDUSTRIAL MATERIAL SUPPLY

At AIFALAK, we are a leading scaffolding contractor with over six years of experience in the industry. We take pride in delivering safe, durable, and cost-effective scaffolding solutions that cater to a wide range of projects, from residential and commercial structures to large-scale industrial installations.

We offer competitive pricing while maintaining the highest standards of quality and safety in every project. Our expertise extends across various scaffolding applications, including:

- Residential Scaffolding
- Commercial Scaffolding
- Industrial Scaffolding
- Roofing & Temporary Roofing Scaffolding
- Decorative & Re-Decoration Scaffolding
- Industrial Tower Works

At AIFALAK, we ensure precision, safety, and reliability in every scaffolding project. Our team of skilled professionals adheres to strict safety standards to guarantee efficient and secure work environments.

Choose AIFALAK for scaffolding solutions that elevate safety, efficiency, and project success!

ALFALAK ELECTRICALS AND POWER CONSTRUCTIONS (AEPCO)

ALFALAK has expanded its business into ALFALAK Electricals and Power Constructions (AEPCO) to cater to the growing demand for extra high voltage & high voltage substations, transmission lines, and electrical distribution projects across the Kingdom of Saudi Arabia. Our expertise lies in providing turnkey solutions, ensuring seamless execution of complex electrical projects.

AEPCO specializes in offering comprehensive services for substation construction, power transmission, and distribution systems. Our scope includes civil works, engineering design, supply of machinery and equipment, procurement of materials, transportation, storage, erection, and commissioning.

We are committed to delivering high-quality services in the field of High Voltage Transmission Lines, spanning across Saudi Arabia. Our goal is to become a trusted market leader by providing innovative and reliable electrical solutions.

AREA OF EXPERTISE:

Refurbishment, Rehabilitation, and Reinforcement of existing 230kV substations, including protection system upgrades and modifications.

Design, Construction, and Expansion of Medium Voltage Substations and Distribution Systems.

Installation and Commissioning of Electrical Extra High Voltage, High Voltage, and Medium Voltage Loose Equipment (Switchgear, Transformers, UPS, etc.).

Pre-commissioning and Installation of Power Monitoring Systems, including Annunciation Systems, Sequence of Events Recorders, Digital Fault Recorders, and Load Shedding Systems.

High Voltage & Extra High Voltage indoor & outdoor substations and transmission lines.

High Voltage Underground Cabling, Overhead & Underground Fiber Optic Cabling, including live-line retrofitting work.

Erection and Dismantling of Overhead Electrical Transmission Lines, including supply of machinery and equipment.
